J. H. H. —

Dear Comrade.

I go to Nelson this PM.
Stepping has bought Bird's
mortgages on Clarion plant
and expects to put in press
and monoline. The Clarion
will then be safe. We want
to get as many old Clarions
as possible assigned to him
in trust for the Party. Arnason
of Vic and Hayward of Dunstable
are OK. So there any way to get
hold of the Norcross claim? I
remember you said some-
thing about it at time I was
talking with Norcross after that
street meeting. If there is any way
to do so try and arrange it.

2
I enclose blank for transfers
of claims. Gurnea and Arman
are wishing the party should have
their claims of part is to be
devoted to party purposes.

The out come of this election points
conclusively to the need of using
every opportunity and avenue
for the spread of sound education
along the economic and poli-
tical lines. Hence the urgent need
of doing all possible to put
feet on its feet. Don't know
whether I'll be at Phoenix, Green-
wood etc or not, but if I go there
shall remove some of the propellor
planted by the Bureau here. The Demo-
crats resigned the senatorship. The Demo-
crats that we were hot on his trail
and pulled out. With to their dissent

3/ his "inlets" (Mums) was not allowed on the platform here during the campaign. There was never a cleaner or more effective campaign put up than one put up here. I never found such meetings in my life, that in frank standpoint of material and interest taken. We got all the vote we were entitled to. The trade union vote of last fall Labor party some of which voted for John J. - went back to the Libs where it properly belonged. The dog returned to his house.

You will see the point in regard to this campaign ~~point~~ matter. If the party can get hold

These claims Stebbins will
push them to execution and
force the Mrs Adams, Pettipiece
out of the premises. His
mortgage will of course
protect him in the mean
time.

shall be in upper country
2 weeks. English will be
and get out paper while
I am away. When I return
shall proceed to devote my
time and energy to mak-
ing it a good one.

Jos J Kinsley
