J. H. H. Victoria B.C.

Dear Comrade,

Cameron was here today on his way north on the Lus. He says she is loaded with people on the way to Port Essington to locate land as that is to be the terminal of G.I.P. Is that to be the spot? English is particularly anxious that you keep us posted as he has some one on the string who will finance him in locating if he can know when and where. If you can furnish any definite information at any time send it to me and I'll put it where it will do the most good.

Everything quiet here, except with the world, which of course does it matter, but over a treatise from its columns, on Evolution, yesterday, suppose you got to

Yours truly
J. H. H.
