JH — yours received, you
can rely on what M Larty
tells you. He has a bunch
of information re the
action of those other parties
that can be made use
of. It is needless to ask
you to do what you
can to help him along
as you will do that any-
way. M L is loud in
praise of what you did
for him at his previous
visit. I hope the matter
can be pushed to a favor-
able conclusion as the pro-
posed trip east largely

depends on it, you
will understand.

M L - will have
you this.

Have refrained from
writing you through
the mails for reasons
known to you.

Yrs in the scrap
