Andre Was Massacred - Colonia Premiers in England-Happenings on Outside.

The king's healtn has been so rapid ly and so satisfactorily restored, that the plans for the coronation are on again. It was determined to-day, after a consultation with members of the royal family, physicians, cabinet ministers and court officials, that His Majesty shall be crowned between August 11 and August 15, the precise date yet to be determined. No official announcement of the fact has yet been made, but plans are being perfected for the coronation, which is to take place in about five weeks. The pageant through the streets, and the cere-mony at Westminster Abbey will be curtailed from the original plan Their Majestles will drive from Buck-ingham Palace to the Abbey through the Mall to Whitehall, and thence to the Abbey, the same route as taken at the opening of parliament.

Rev. Dr. Ferlies, a Church of Eng-Rev. Dr. Ferries, a Charca of Eng-land clergyman, arrived from York Factory, Northwest British Territory, Saturday and brings authentic infor-mation of the fate of the explorer Au-dre and his companions.

dre and his companions.

Two years ago 160 miles north of York, a party of Esquimaux, under the leadership of Old Huskia, saw the An-

York, a party of Equimans, under the leadership of Old Huskia, saw the Andre balloon alight on a piain of snow. Three men emerged from the balloon, and some of Old Huska's people approached them out of curtosity. As they did uso, one of Andre's companions fired off a gun. This is a signal to uncivilized natives for battle. It was regarded as a challenge, and almost instantly the natives full upon the three explorers and massacred them.

The Hudson Bay company has recently offered a reward for the recovery of any portion of the outlie belonging to Andre, and though the natives have goine in search of it they have not returned, believing, as Rev. Dr. Ferlies says, that they will in some way be punished, for they now understand that it was not an attack upon them, but an accident by which the gun was discharged that precipitated the massacre.

unished, for they now understant that was not an attack upon them, but an accident by which the gun was disharged that precipitated the masses re.

Edmond Barton, premier of Australa, and Richard Schdon, the New Zea, and Prime minister, both made peeches on the 5th inst, the former at banque at the Sawage club with the attee when he was presented with the recedom of his native to an, St. Helena, and concerned of colonial premiers in condon would ultimately bear fruit. Mr. Barton said that though little might be committed to neare at the tree and a banquet at the Savage club with the latter when he was presented with the latter when he was presented with the latter when he was presented with the freedom of his native town, St. Helenai. Lancashire, and both prophe-led that the conference of colonial premiers in London would ultimately bear frait. Mr. Barton said that though little might be committed to paper at the present meeting of the premiers, there was an earnest desire in the colonies for closer relations with the mother country and union of British chizenship, and he was sure that some start would be made in that direction. Mr. Seddon, in the course of his

would be made in that direction.

Mr. Seddon, in the course of his Douglass Island, Alaska, abows in its space, sail that continental nations lith annual report that the total race could not war on each other's trade, profit, after cutting off all running exbut could only war upon the trade of penses, was \$352,559. The accrage the British empire. When he saw que yield of the ore was \$1.88 per ton.

# VERY HIGH GRADE GOLD ORE IN THE VICINITY OF FERGUSON

CORONATION TO BE IN AUGUST The Free Milling Gold Quartz and Tellurides on Gainer Creek Assay Tremendously High. the Mines In the District Carry High Values in Gold. Ores That Will Not Pay to Ship for Silver and Lead May Be Treated Profitably by the Syanide or Amalgamation Process.

> A considerable amount of space has been devoted by the Eagle to the won derfully rich free gold properties of the Fish Creek camp. This was done be-cause their great extent and richness were but recently demonstrated and some of the men who were instru-mental in bringing Fish Creek into prominence were the two -- Messrs. Pool and Young of Ferguson-who had most to do with converting the town of Ferguson from a mere prospectors camp into a promising and thriving mining centre. This these two gentlemen did by backing up their confidence in the mining claims of the district by persistently and energetically prose cuting development work on claims as fast as money could be se carred until now their syndicate owns not one, but several mines on a ship-ping basis and worth a big pile-ion money. This syndicate do not take hold of a mining claim without first

ish trade declined, he would have been ish trade declined, he would have been wanting in duty to his country and his colony if he had not brought the mat-ter forward and tried to stop the inroad by which a rival nation was able largely to build up its/army and naval

A very important discovery to mine operators and all steel and iron workers has just been discovered and put it to practical operation by John Copes, a citizen and miner of the Boulder, Colo-

rado district. The invention, which is a chemical bombination, has been pa-tepted and is a sure, quick and safe means of tempering steel or iron, ren-dering it so hard and tough that break-ing is impossible by the application of

it. Those who are interested can make an examination of the process and test it to their own satisfaction at Copper Rock, Colorado.—Ex.

The great Treadwell gold mine on Douglass Island, Alaska, shows in its 11th annual report that the total het

thoroughly investigating it and that milling gold quartz, but the lead and their judgmont is sound has been demonstrated time after time. We were therefore glad to learn that our leading operators had entered the Fish Creek camp beames they know they would do no dilly-dailying, but go right ahead and prove their property.

However, what, we warted, to say is \$55 in gold to the to. Thereserbarre.

However, what we wanted to say is that Fish Creek has not all the free gold ledges in the Lardeau. There are that Fish Creek unseed an unmber of claims near Ferguson with and lead.

gold ledges in the Lardeau. There are and lead.

just as rich ore as is found on Fish
Creek, and one property in particular, considerably higher than this, and the Ophir-Lade, under bond to the later are excelled by the Cromabove mentioned syndicate, has an well.

The same gold belt that is exciting somethatterion at Fish Creek under we hountry.

last season after the bond was effected, and a trial shipment was made to Trail. This shipment proved highly satisfac-

ore on the second class dump carrying high gold values. Individual assays from this dump have run as high as \$55 in gold to the ton. Thorough sampling shows gold values of from \$8 to \$10 a ton besides fair values in ailver

son district, and the Lade group proves it to be richer on Gainer creek than even at Camborne. A test made by the Kaslo Sampling Works on tell gride ore tory and netted eleven hundred dollars from the Lade group, as per certificate tory and notted eleven hundred dollars from the Lade group, as per certineate per ton. Work is to be resumed yery shown to the Eagle, gave the astonish soon and a quantity of the ore is to be shipped next fall.

Not only is the Lardeau rich in free Creek beat this?

### An Eye-Opener.

and is quoted approvingly by the New

Denyer Ledge:
"The bints of the swell Imperialists at home that the colonies should enter into a hard and fast agreement to assist the mother country in any war that she may urge in the future, have, we are glad to sav been passed upon by Laur-ier and the Australian premier. Nor will New Zealand bind herself to any will new Zealand bind horself to any irrendly to Great Erissin, are publishsuch manifestly unfair contract, especing abominable misrepresentations of
the king. The fact is that His Maber being able to send ten contingents
jety has undergone's most serious
to South Africa was the fact of the varoperation, serious beyond all possible
ious industries being at a low obb or
question, and it is all true that the lous industries being at a low ebb on account of the socialistic labor laws and the consequent withdrawal of capital, the island swarming with nnem ployed men. Indeed the streets of Auckland and Dunedin were crawling with men out of work, only too glad to paid to another land, bellies filled, fair wages, lots of brass bands and plenty of pretty girls waving hankles at the docks."

### Rockefeller Reaching Out

Rockefeller's latest move is to com-bine the potash concerns of Germany into a \$50,000,000 trust. The exploits of the Standard Oil magnates is caus-ing wide discussion in the Fatherland. Last week Rockefeller was denounced and also lauded in parliament.

Teams were put to work Thursday a hauling ore from the Ajax mine to the smelter. The Ajax belongs to the Great Western Mines, Ltd.

### Late News From London

People who want to reform (?) the The Canadian ministers lunched to-social and economic considers of this day with Lord and Lady Grey at the country on New Zealand lines should loyal Botanical Gardens and dired, take careful note of the following significant paragraph. It is from the pen they attended a gorgeous official recept the fewer editor of the Ego Option: that the Indian princes at the Indian they attended a gorgeous official recep-tion to the Indian princes at the Indian

Sir Frederick Borden is better, but

Sir Frederick Borden is better, but still unwell.

Sir Wilfrid Laurier is in much bet-ter health and completed to-day his ar-rangements for his visit to Faris, where he will be elaborately, though semi-

officially, entertained.

Some papers at a distance, not too friendly to Great Britain, are publishking fought bravely to go through the coronation coremony, simply in his in-tense anxiety not to disappoint the people. He even declared to Sir Frederick Troves, Sir Francia Laking and other surgeons in attendance, that, operation or no operation, "I must so to the Abbey." It was only when teld that to delay the operation would im-peril his life that he did yield.

Millions of pounds have been lost by trades people and others owing to the postponement, yet not a murmur is heard here. It is only foreigners and enemies nearer home who are circulat-ing deprecatory opinions.

The fact is there is universal sympa-

thy for the king and admiration for his courage will make his future popular-icy only less than that of his beloved mother, the late Queen Victoria.

## NETTIE L. AGAIN SHIPPING

A Large Number of Miners Working on the Prospects in This District. Good Prospecting Weather.

Early in the spring it was predicted by many that the Lardeau would have an early season. The reason given for arriving at this conclusion was that the snowfall had been light and the winter long and rather severe. This did not, however, turn out as predicted for the season has been fully three weeks later than usual and consequently miners and prospectors were just so much later getting in the hills This has had a bad effect on the camp and business mon have not had the volume of trade expected. However within the past week the scene has changed. Trade has increased largely in all lines and the pack animals are kept on the move carrying supplies to the mines and prospects. The mines are now increas-ing their force, especially the Triune and Nettie L. At the Cup work is ge-ing along smoothly. The force will not be increased until the new machin-ery arrives. Mr. Garett is making good headway with the long tunnel on the Sunshine. Work has been re-sumed on the Old Gold and preparasame on the Old Gold and prepara-tions are being made to start work on the Primrose. On the whole there is a hig lot of substantial work now be-ing done in the district, much more ing done in the district, much more year.

Dave Morgan returned Tuesday from the Surprise group on Surprise creek where he and assistants have been do ing the annual assessments. Dave evidently has a big proposition in the Sur-prise and when depth is obtained it will likely prove a surprise to many who have not investigated it. The lead 1,000 feet and assays from \$14 to \$100 per ton in silver and lead. It will average 40 per cent lead and 50 cunces in silver to the ton.

A promising free gold property is the Shakespeare group on Pool creek. Trails and cabins are being built for prosecuting work. The owners of the property are Messrs. A. Going, H. Jones and T. W. Graham.

An Eagle reporter had a short talk with Vince Lade of the Oyster, Criterin and Rossland groups of Fish Creek.
He said they were making good pre-gress, with the work. Comfortable cables of split codur had been erected and a start had been made under-ground. Eleven men are employed tow, but the force will be materially increased the first of next week, when The work now in hand is the running of a crosscut on the Criterion to tap the lead. The tunnel is now in 25 fee: and will be extended to 80 feet and this will give a depth of 100 feet. The nel on the Rossland is in 15 feet.

C. A. Irwin came down from the Mabel group Monday where he had a small force at work for the past few weeks. This work, Mr. Irwin stated. weeks. This work, Mr. Irwin stated.

## THE TRIUNE.

It might be as well to set the reading public right concerning strikes on the Triune, and tales of immense bodies of ore, told by peoale who hardly know the difference between a "horse and a wild cat," or a "hanging wall or pig lead," and who consequently get them-selves as well as others into trouble by their exaggerations, and ultimately give the camp a black eye, The Triune to-day is nearer to being a mine than ever before in its brief history. As a prospect it has hardly been equaled in B. C. or elsewhere, and as a mine it is hoped the same may be said. The prospect stage of this property is closing rapidly and giving way to the more substantial name "mine." All who are familiar with mines and minir g know what this means and can readily discriminate. At present two short crosscuts are being run towards the foot wall proper, which lies 21 feet distant and consists of bonded zones of graphitic schist.
It is against and with this formation that the mine proper is to be looked for. The above mentioned crosscuts are being run to actually and not theorietically demonstrate that the recent strike made is con-

Since the work started one of the cuts has partly crossed a fine body of carbonates and high grade lead and tetra hidrite (gray copper). This being so far proven leaves hardly a doubt of the ore body continuing on and down, but taking no chances another is being run to further prove it. Upon proof of existance, then lower and longer cuts will be well. When the snow is practically off the project is to run a lower tunnel, thereby getting away from the grass roots, gaining a desirable depth and as well, as to be hoped for, additional values.

Depth has in this district, as well as in those adjacent, demonstrated this latter piece of flattery to be true, but obly work and not heresay will prove it. Though not officially handed out, it is more than likely that a tram line will be run from the mine this summer to a station in the timber. This great advantage will allow of the property being worked to its fullest extent, winter and summer seasons alike.

Still dwelling in mining lorefrom indications and we must go by -Ferguson is very likely to have the biggest boom since '97, but that it will be of a more solid nature, every evidence is about to

Prospectors have a fever of their Whether or not the Fish Creek belt

Lardeau Eagle runs through here is immaterial, so long as the ore exists, and lately samples (not specimens) have come in that show well and mean a great deal. It is safe to say that this son's work will show free milling ores quite close at hand, and the gold monopoly may not be just on the other side.

## EDITORIAL NOTES.

The rivers are rising rapidly at Cal-gary and Lethbridge, and the water is within 14 inches of high water mark of the great flood of 1887.

Sir Wilfrid Laurier is visiting in aris. While there he will endeavor to induce the French government to come to a decision on the question of a direct line of steamers between Canada and France. He will also endekyon to obtain a more advanced commercial policy between Canada and France.

It is stated in the Spokesman-Review that the strike of the machinists and hollermakers on the Union Pacific railboilermakers on the Union Pacific rail-road seems to have settled down to a stubborn, quiet fight for supremacy. The strikers felt more encouragement to-day from the walkout of their crafts-men on the Northwestern and Montana Central railroads, which they assert extra demand it will create for skilled

Many people think that having got over the rainy season asidewalk can be dispensed with. It looks as if this would have to be, until fall at least, when lumber will be more plentful and carpenters not in such demand.

> Write or call on General Agent, Henry Floyd, Revelstoke, B. C.

At dinner the other evening Col. George T. Denison, the British Empire League delegate from Canada, said it was too bad to revive Toronto police court stories about him in this country Having said that, he volunteered one himself. On a previous visit to Eugland he contributed an article to the westminster Gazette on the military aspects of Imperialism, which was re-printed in the Toronto papers. On his return to the magisterial bench one of the first culprits to face him was an Irishman named Maher, an old offender. "What's the matter this time, Maher?" "What's the matter this time, Maher," saked the Colonel. "Drunk, yer worship," responded Maher. "Sure, I read the fine article ye'se wrote in the English papers, and the grand fightin' similmints avitupest me, sorr." "Maher," said the colonel, "you are discharged, as it seems you read that sirticle, which I believe few other people in this province did." "It's yourself is a rale sober," said Mr. Mäher, bowing to the colonel as he left the dock.—Manchester Guardian.

### Some Good Horse Sense.

"The best way to build up a town is to stand by every man in town. All residents should be partners, not op-ponents. In all livelihoods the more business your rival does the more you will do. Every business man who treats inis customers honestly, courteously and fairly will get his share, and the more business that can be secured by united efforts, the better it will be for all. When a town ceases to grow it begins to die, and the more people try to kill each other in their business the more readily will utter ruin come to all. reachly will utter ruin come to all, stand together for the advancement of every citizen. If a man shows ability to prosper do not pull him back through joalousy or weigh him down through a cold indifference,"—Ex.

### Victoria's Memory Honored.

The representative of the United States army who was in England to at-tend the coronation of King Edward, accompanied by Colonels Borup and Biddle and attended by Sir John Innes Ker, went to Windsor on the afternoon of June 30th and placed a wreath on Queen Victoria's tumb, on behalf of the United States army. The party was met by a royal carriage at Wind-sor railroad station.

## A Big Grizziy.

What many regard as the largest grizzly ever killed in the neighborhood, was shot at Duffy's lake by the Gott boys. The beast measured 10 feet 6 inches in length, and three shots were fired into him before bruin's advance on the hunters could be checked.

## AID FOR FERGUSON'S HOSPITAL

The miners and business men of Ferguson have united to erect a hospi-tal here. This is an absolute neces-sity as there is no place in which we sity as there is no place in which we can properly care for a sick man who don't happen to have a 1,000 of his own. There as we have a 1,000 of his own. There as the copium \$1.5,000 bearing the towards as the copium \$1.5,000 bearing the subscription from outside points which will be acknowledged through the columns of the Eagle has week. There is something like \$1.600 more to raise and we bope that those who have made money in this camp will remansher those who work away frum the comforts of older communities and send along a liberal sum to help in the good work. The hospital will be owned and operated by the members of Lardeku Miners' Union. Address all subscriptions to the Eagle.
