

Lardeau Eagle

Published every Friday at Ferguson, B. C.

E. G. WOODWARD,

to whom all correspondence should be mailed.

Subscription Rates: \$2.00 per annum, to any address in America; \$1.25 for six months; \$2.50 a year to foreign addresses. No pay, no paper.

Job Printing: The Eagle job department is the best equipped office, and the only office which can furnish the typographical union label in North Kootenay; a guarantee in itself of good work and promptness.

Advertising Rates: Display ads, \$1.00 per single column inch per month. Legal ads, 12 cents per (non-parted) line for first insertion; 8 cents per line for each additional insertion. Reading notices 10 cents per line each issue. Ninety day legal notices, \$10; sixty days, \$7.50; thirty days, \$5. No ads accepted at less than these rates. No room for quick ads.

Four weekly insertions constitutes one month's advertising.

FRIDAY, FEBRUARY 27 1903.

EDITORIAL NOTES.

The roads and trails near Ferguson were sadly neglected last year and yet it is over these roads that most of the ore that was shipped during the year in the whole riding had to be hauled. It is true the appropriation for the riding was far beneath what the requirements called for but had we been given a fair share we would have registered no kick, but when our member's recommendations were turned down flat we consider the spoils system carried altogether too far.

It was announced from Victoria that no money was to be spent in new work but what little was available last year was to be spent on repairs where it was most necessary and where it would do the most good. We fail to see how the work that was done north of Revelstoke could be called repairs and we fail to see how the work could be accounted of such urgent necessity as the roads and trails to the mines about Ferguson where large development work is carried on the year round and over which ore is hauled almost every day in the year. Verily the ways of governments are mysterious..

The Lanyon Zinc Company of Kansas has bargained to purchase the Slocan zinc ores up to 75,000 tons a year. This revival in zinc is a boon to the Slocan especially at this time when silver and lead is at such a low ebb. Silver and lead are, of course, the chief products of the Slocan and when these ores are selling at a fair price the district is, indeed, a scene of great activity. We feel quite confident, however, that the time is not far distant when silver and lead will be in demand at what we think normal prices, that is somewhere about 55 cents for silver and \$5 per cwt. for lead.

Zinc does not concern us much in the Lardeau. So far the metal has not been found in commercial quantities but we are glad our sister districts are reaping benefit by the newly opened market and increased demand.

Hon. Joseph Martin, who, with others is taking a prominent part in the bye-election campaign now being waged in West Yale, has issued to the electors of that constituency a formal address expressing succinctly the considerations which have impelled him to actively assist Mr. Semlin the opposition candidate. He believes that a division on strictly party lines can alone disentangle the snarl into which Provincial politics have been thrown, and considers the defeat of the Prior government a necessary preliminary step to the securing of that result. Mr. Martin expressed himself as confident that the present government cannot muster a majority in the house to carry on business even if its candidate is elected in West Yale. Mr. Martin declares that the defeat of the Prior government will undoubtedly result in a general election, which will, he says, be fought on party lines.—Rossland Miner.

The Northern Pacific Railway Company has made application to the Manitoba legislature for a charter to build another line into Manitoba. It will be remembered that only three years ago the Northern Pacific Company sold out their Manitoba lines to the Manitoba government, etc.

Notice.

Notice is hereby given that 30 days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands in West Kootenay: Commencing at a post planted about 40 chains east of Ferguson townsite, thence 100 chains north, thence 40 chains east, thence 100 chains south, thence 40 chains west to point of commencement.

Dated 25th February, 1903.

THE NEW AND ONLY MAP OF THIS DISTRICT

Including the Fish Creek camp and Upper Duncan River section, compiled by A. F. Rankine, P. E. S. and S. Shannon, B. A., is now on sale at this office. The ready sale of the map is proving that we have said for it. The front Lake division is lithographed in black, the Lardeau in red, and the Ainsworth in blue. Even a tenderfoot could take a copy of this map and find any claim recorded in the three divisions. The mountains, lakes, creeks, wagon roads, trails, surveyed railway routes, and the location and name (by a unique index) of every mineral claim in the district is shown.

Next to Visiting the Country in Person This Map Takes First Place.

In fact every geographical feature is so well defined that one can see at a glance the nature of our country and the trend of the claim locations gives an intelligible idea of the mineral belts running through the camp. It is certainly

The Best Worth For One Dollar

ever offered in the map line of a mining camp. It is the first complete map of the district and is well worth the price. What you are looking for, WE ALSO HAVE A FEW MAPS MOUNTED ON LINEN WITH A GOOD COVER, FOR TRAVELLERS OR PROSPECTORS, WHICH SELL AT \$1.00. THESE ARE THE BEST VALUE, AS THEY WILL LAST FOR YEARS.

Address your order, with an enclosure of a one dollar bill, (no cheques, orders, etc.) to

Mining companies or others ordering lots of 20 or more, maps will be supplied at 50 cents each.

THE LARDEAU EAGLE,
FERGUSON, B. C.

SAY!

How's your Printing? Do you know that the EAGLE Job Department has one of the best equipped plants in North Kootenay and that it is unnecessary to send out of the Lardeau for work?

for that order you are sending away out of the district to save a few shillings. Don't be fooled. The EAGLE can give you satisfaction. We carry only the first quality in office stationery, etc.

OUT OF TOWN ORDERS

Buy Lots Now And Get in on the Ground Floor

The Lardeau is the richest known mining district in British Columbia and the mines, particularly those about Ferguson, contain large quantities of ore being big as well as rich. Several new properties will ship ore during the coming year and the town is sure to double in size. Buy a few lots now before the effect of this year's progress sends them up, mayhap beyond your reach.

Business Lots \$150 up.

Residence Lots \$75 up.

LARDEAU MINES, LTD.

The three claims owned by the company are the "Lardeau Queen," the "Lardeau King" and the "Lardeau Prince," all abutting end to end, through which three leads pass the entire length, situated at the head of Lexington creek, in the Lardeau mining division of West Kootenay, British Columbia.

These three claims are located on the western slope of Goat Mountain, the lines being north-westerly and south-easterly, and form one complete portion of Mineral land of about 150 acres. They lie east less than four miles up from Fish River.

The "Silted" and "Wild West" belts, two of the strongest and best known leads in that district, and work already done on adjacent extensions has given most satisfactory results as to extent of ore bodies and increased values with depth.

The formation is slate and schist, lying in an immense lime dyke, and the croppings of the leads are generally topped with heavy iron capping and quartz, which gives assays from \$8 up on the surface.

VEINS AND WORK DONE

Exploitation consists of two open cuts along the surface for a distance of twenty feet, which exposed a body of argenticiferous galena over 9 inches in width. The value of this ore body was \$25.60 on the surface, but at a depth of less than three feet it has increased to \$40.60. To tap this ore showing and the massive iron capped ledge close to which it lies the present tunnel was commenced and is now in a distance of 82 feet. Another 35 feet of crosscutting shows reach this ledge at a depth of about 125 feet. When 61 feet had been driven, an almost-solid body of iron ore three feet thick was encountered in the tunnel lying against a wall of slate. A sample at this point assayed \$77.00 in gold, silver, copper and lead. At a distance of 14 feet from this lead a fine body of ore has been encountered which, when crossed, proved to be seven and a half feet wide, carrying the finest looking mineral yet found on the property. A third ledge which contains the richest ore and widest surface showing will be reached about February 15th. This is ore which encountered, will be from 12 to 15 feet wide and greatest results are expected.

The property has an excellent surface showing. The average assays are most encouraging, considering the great width and prominance of the ledge across the country, with such great width and prominance of the surface judging from other properties in the near vicinity, some of which are on the same lead and have developed very rich ore bodies.

In conclusion I would say that the Lardeau Mines are as good as any, if not the best, in the vicinity, and I verily believe with a nominal expenditure, they should be made dividend paying in a short time, and I would strongly recommend extensive development toward that end.
