KITCHENER'S REPORT.

Boers Accounted for During the Week.

London, March 18.—Lord Kitchener's weekly report shows that during the week ended today 11 more Boers were killed, 7 were wounded, 158 were made prisoners and 126 surrendered.

Pretoria, March 18.—Gen. Bruce Hamilton has captured a small Boer laager castward of Vryheid, southeastern Transvanl. Four Boers were killed, six wounded and 17 were made prisoners. Gen. Botha's brother-in-law, Gen. Emmett, was among the Boers captured.

MANITOBA FAIR.

Nothing Will Be Done Till Referendum Decided.

Winnipeg, March 18.—(Special)—The Winnipeg exhibition board met today to consider arrangements for the next Winnipeg industrial show. After discussion the following motion was carried: "That in the opinion of the board it is considered advisable to adjourn until after the Liquor Act referendum has been submitted to the people, as upon the result of the vote will largely depend the plaus to be adopted for this year's fair."

VANCOUVER CONSERVATIVES. Association Organizes Club Full of Life and Energy.

Vancouver, March 18.—(Special)—The Conservative association met tonight and decided that the interests of the party demanded the formation of a Conservative club and the disbandment of the Young Men's Conservative club. The new club will have attractive rooms, weekly speeches, musical and literary entertainments and games for recreation being opened regularly. Nearly half the necessary funds for the next three years have already been furnished before a canvass has been made. The club will organize all campaigns and generally spred the spirit of Conservatism in the electoral district of Burrard. Vancouver, March 18.—(Special)—The onservative association met tonight and

CHINESE REBELS.

Defeat General Ma After Two Days' Fight.

Hongkong, March 18.—Gen. Ma has been defeated by the Kwang Si rebels, who have taken possession of Fang Cheng. They have killed or captured all the mandarins and have looted the town. Gen. Ma attacked the rebels' strongholds, but after an engagement lasting two days was forced to retreat. The rebels then established their head-quarters at Fang Cheng. The rebellion is spreading rapidly in the provinces of Kwang Si. Kwang Tung and Yun Nan. A letter received here from Ten Pai, 50 miles from Kwang Ghou, says all business is suspended there owing to fear of the rebels.

Marshal Su is at Tien Chou and Gen. Ma is at Kao Chou. Both of these commanders are awaiting reinforcements. They wish to join their forces, but the rebels are holding all the intervening passes and prevent a junction of the government troops. Many of the imperial soldiers are joining the rebels, owing to the superior pay offered them and the opportunity for looting. The rebel leader is Hung Min, a relative of the celebrated Hung Sou Chuen, leader of the Tai Fing rebellion.

HOBOKEN DOCK FIRE.

Burned and One Steamship De-

New York, March 18.—The pier of the Phoenix line in Hoboken, was destroyed by fire tonight. The steamship British Queen, was totally destroyed, several lighters were burned, the fire threatened the Campbell store, and for a time looked as if the flames would reach the Holland-American line docks. The Mann, of the latter line, was towed safely into the stream.

British Queen when the fire started, assert that the chief engineer of the British Queen is unaccounted for.

The fire started at 8:35, near the end of the Phoenix pier, nearest the North river, among cotton bales, with which the pier was covered. The flames ran in all directions until the whole structure, which was a wooden one surmounted

the pier was covered. The flames ran in 24 directions until the whole structure, which was a wooden one, surmounted by a frame shed was enveloped.

The steamer British Queen, owned by the Phoenix people, was tied to the south side of the pier, and the flames leaped to her upper decks. These decks were covered with eattle pens, which being built of light timber, were the means of at once spreading the fire over the steamer. There was no chance to cut her loose from her borth until about 11 o'clock, when tugs laid hold of her and got her into midstream. Her crew had a narrow escape.

At midnight rumors were revived that there had been loss of life by the fire. The stories came from the mouths of longshoremen, who leaimed to have seen from 12 to 15 men struggling in the water alongside the piers when the fire started. Whether they got out safely or not, they could not learn. The equartermaster of the Queen said some of the crew of that vessel were asleep in the forecastle when the fire began, and if this was so, might not have escaped as he did.

STANLEY OUP.

Winnipeg, March 18.—(Special.)—At a banquet to the Montreal hockey team, who won the Stanley cup last night by a score of two goals to one, W. Mac-Farlane, the referee, was presented with a gold watch by the Victorias, the Montreals, and the rink company. The Victorias have announced their intention of again going active the entire that with the company.

SPANISH CABINET.

Madrid, March 18.—The composition of the new cabinet is announced to be as follows: Premier, Senor Sagasta; minister of foreign affairs, the Duke of Almodovar; minister of justice, Senor Montilla; minister of finence, Senor Mortigamez; minister of interior, Senor Moret; minister of war, Gen. Weyler; minister of marine, the Duke of Veraqua; minister of public instruction, Count Romanones; minister of agriculture, Senor Canalejas. The new ministers are Senors Montilla, Rodrigamez and Canalejas.

WIRELESS MESSAGES.

H. M. S. Revenge Intercepts Marconi grams from Steamers.

London, March 18.—The Globe's naval correspondent reports that on her recent cruise along the Irish coast the British battleship Revenge was fitted with a wireless telegraph apparatus and received a number of private Marconigrams passing between mail steamers and the shore. The correspondent understands that the admiratly proposes to make an attempt to intercept Marconigrams from an experimental station configures from an experimental station across the Atlantic, with the view of de-termining whether Signor Marconi has perfected his syntonic system.

SOLDIERS RIOT.

in Fight in Alabama.

Mobile, Ala., March 18.—Al report was received from Fort Morgan, Ala., today, at the entrance to Mobile Bay, that a riot between soldiers and civilians occurred there Sunday night. One man is reported to have been killed and 10 or 15 wounded. There has been no communication between the barracks and this city since Sunday afternoom. The news was not learned until a private boat came in today. About 40 or 50 soldiers were drinking at a saloon here called the "Blue Goose," on the outside of the reservation, when the fight started between the boys in uniform and a crowd of civilians, who are making repairs at the barracks. Pistols and knives are said to have been used. Michael Keoughan, who was discharged last Saturday from the reservation.

BASKETBALL.

woods and Boys: Brigade was won by the Brigade by the narrow margin of two points, the score being 14 to 12. In the first half the score was 10 to 0, after a keen struggle. In the second half, however, the Fernwoods picked up, but within three minutes of time the Brigade in three minutes of time the l took the goal that won the game

STOPS THE COUGH AND WORKS OFF THE COLD. Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25 cents.

A LAND OF DOGS.

A LAND OF DOGS.

France has 75 dogs to every 1,000 inhabitants. No other country in Europe has this record. The European dog census just completed, shows that Frenchmen support 2,841,000 canline companions.

Next comes Ireland, with 73 dogs, per cach 1,000 of inhabitants: England with 38: Germany with 31; and Sweden with 11. Russia contains 1,500,000 dogs and Turkey 350,000. The result of the dog census in the last named country is not surprising travellers who have lived in Constantinople, which is overrun with dogs. It is understood however, that Turkish dogs are metropolitan in their tastes and shun the rural districts.

In France, where every dog is registered and taxed, the computation was easy and that of the United States and the United States and the United States are not more than half the number of dogs that find homes in the comparatively small country of France.

Hospital Directors Take Steps to That End at Last Night's Meeting.

Discussion of the Hospital Bill Other Business of the Institution.

A meeting of the directors of the Jubileo hospital was held last night at the Board of Trade rooms, with President Holland in the chair, and directors Joshua Davies, I. Braverman, W. Wilson, J. R. Forman, R. S. Day, R. L. Drury, F. B. Pemberton, H. D. Helmcken and R. Brett present. The business ranged from copyrighted hospital nurses uniforms, to building chicken fences, from drainage schemes to the placing of portraits of the presidents in the hospital office, and the hospital bill before the House. The House committee in their report ordered payment for the building of the lavatory, which was approved. Regarding the admission of the wives and families of the soldiers of H. M. garrison, the committee recommended that they be admitted to the public ward at \$7 per week. This was adopted. The committee also reported that:

"As nursing institutions in other parts of Canada have protected the uniform of their nurses, and as nurses who have not graduated from the Jubilee are wearing our uniform, we consider the time has come when we should, if possible, protect our nurses and ourselves, and we suggest that the necessary steps be taken to find out what can be done in this matter, and if successful, for the preparation of a suitably designed material for their use."

The House committee was instructed to wait upon the government to ask that

The House committee was instructed to wait upon the government to ask that the state of the taken to this end, and have the nurses uniforms copyrighted.

The Grounds committee reported resourced the state of the s

After some discussion regarding the hospital bill, a committee consisting of Messrs iHelmeken, Davies and Day were appointed to wait on the government in this regard. Mr. Davies pointed out that as the maximum grant given to a hospital was \$10,000, and as the hospital was now receiving that amount, and if it increased in size there would be no addition, and as according to the terms of the act, the amount that would have been paid the hospital tast year for 15,327 days stay of patients was \$8,507.15, the hospital would not be the gainer by the new act.

Mr. E. A. Lewis proposed that the por-

would bring the work forward as soon as possible. The Ladies' Auxiliary has now \$2,600 in hand towards the pro-

ject.
Miss Heaney, head nurse, tendered her regignation, which was regretfully accepted. A motion was carried instructing the matron to choose a successor. Miss May McDonald will be tendered the

ing the matron to choose a successor. Miss May McDonald will be tendered the position.

Dr. Hasell, resident medical superintendent, reported that the number of patients admitted during the month was 60, number treated, 103; total days' stay, 1,380; and daily average number of patients, 45.11. Received and filed.

The matron acknowledged the following donations: Papers and magazines from Mrs. Richard Hall; boots and clothing from Mr. Bolton; magazines from Mrs. Bichard Hall; boots and clothing from Mr. Bolton; magazines from Mrs. Bellen from Mrs. Richard Hall; boots and filed, and donors thanked. The steward acknowledged the following donations: Trees from F. Pemberton, and the Experimental Farm, per J. R. Anderson, and bulbs by Mrs. P. T. Johnston. Received and filed, and donors thanked.

The report of the Finance committee, presenting accounts for February, amounting to \$1,690.29, was approved for payment, and the salaries for the same month, amounting to \$175.50, were paid on due date. The total days stay for February was 1,380, and the salaries paid and accounts payable give an average per diem cost per patient of \$1.86. The report was adopted.

THESE NEW GAMES.

The fashionable physician had told his patient what he thought was necessary to restore her to complete health after the wear and tear of a hard social season. She was to take a brief Southern trin, give up all social pleasures for a while and diet with moderate prudence.

She looked thoughtful and took in all his advice. After he had told her what to eat and what to avoid she spoke for the first time.

"And have about source,"

nd how about squash, doctor?" she "And how about squass, access asked.
"Squash?" he repeated with a tone of surprise in his voice. "Of course you may ent it if you want to. I didn't suppose you enred fon it."
"Ent it?" she reneated in disgust. "I don't want to eat it, but I want to play

It."

The physician dushed slightly, remarked that he had so little time for sport that he could not keep up with all the new games and told ker to play it if she wanted to.—New York Sun.

it Will Be Steel Structure

City Council Devotes Meeting to Point Ellice Bridge and Reaches Decision.

New.York Engineer to Prepare Plans, city to Build Foundation,

ing aldermen being present: Messrs, Kinsman, Williams, Cameron, Vincent, Grahame, McCandiess! Worthington, Yates and Barnard.

The meeting went into committee at once to consider the Point Eilliee bridge question. His Worship began by giving a resume of the position and progress already made on the project.

A steel bridge had at first been decided on at a cost of about \$100,000, of which \$75,000 was already provided for by the by-law of last year. This amount was supplemented through an agreement with the Tramway company, by a contributed contact through an agreement with the Tramway company, by a contributed contact through an agreement with cost of making of 25 per 25,0000 and after that also intimated that \$30,000 would be contributed out of the provincial treasury. Then a proposal had been made to erect a stone bridge, and another for a composite structure of steel and concrete. These would cost of host \$210,000, and \$100,000 respectively. There was not much doubt, he thought, about which was the best. That was the stone one. But the matter of cost was against it, for were this sort of bridge decided on, another \$100,000 would have to be raised. On that point, however, a committee had been appointed.

Ald. Grahame thought that the city would have to be contented with a \$95,000 bridge, and that meant that they could not have a stone on \$20,000 from the government and \$20,000 from the government and \$20,000 from the government and \$20,000 from the groven and the contributions of \$30,000 from the government and \$20,000 from the government

All. Grahame then moved that the bridge have a concrete substructure.

At this point Mr. Topp explained that this would be of concrete entirely placed upon piles cut off at the mind line. Ho thought, however, that it might be well to see what the superstructure would cost before deciding on the substructure. If the steel work cost more than was expected they would then be able to fall back on 7-foot cylinders for the foundation, which would cost much less than a big solid pier of concrete.

In consideration of this the motion was altered to read, and it was carried, that the city build the substructure under this direction.

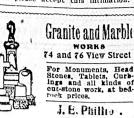

lirection. It was then decided that the bridge have 4 feet of roadway, with two 5-foot side-valks, and that the tram tracks be on ne side.

FROM DAKOTA.

From Columbian.

Still the settlers are finding their way to this district from fur away Dakota. Yesterday Wm. Annas, who has been preceded by his wife and family, arrived over the C. F. R. with a carload of settlers' effects. Mr. Annas left his former home in a blinding snow storm four days ago. He went on to Ohilliwack on the steamer Beaver yesterday, and will be followed next week by a former neighbor, Mr. Woodrith.

The funeral will take place from the above residence on Wednesday afternoon

24 feet of roadway, with two 5-foot side-walks, and that the tram tracks be on one side.

Regarding the plans, Ald. Williams thought there was no need to go outside the flex of the city for an engineer. He would advocate that a Canadian engineer be employed. He did not want to see the money spent out of the country.

Several of the aldermen thought that the best man possible should be had, and the mames of Messrs. Theodore Cooper of New York, and J. A. S. Waddel of Kansas City, and Mr. Jennings were saggested, those men having been communicated with last year upon the subject.

Ald. Vincent then moved that Mr. Cooper be employed.

Ald. Williams moved in amendment that Mr. Jennings be retained. He was a Canadian and had done good work, he understood, for the C. T. thought that the Council should consider the recommendation of their own engineer, who find said that Mr. Cooper was the best man.

On vote being taken, it was decided that Mr. Cooper was the best man.

On vote being taken, it was decided that Mr. Cooper be employed, his terms being 51500 for the plans, and \$1,000 as consulting engineer on the tenders, etc.

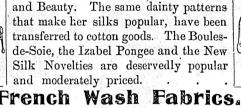

The city clerk was then instructed to communicate with Mr. Cooper, engaging his services, while His Worshlp was authorized to telegraph Senator Templeman regarding the consent of the government to the erection of the bridge.

Sundry questions, such as the obstruction of traffic during the progress of the work, the hanging on of gas and water mains, were then referred to the engineer, and the committee adjourned, to meet again this evening, when the estimates will be again considered.
