## SECEDING SOCIALISTS

### TO FORM NEW PARTY

Meeting to Organize Called for Tomorrow at Vancouver

Says the Vancouver News-Advertiser of Sunday:

For some time there has been trouble brewing in the ranks of the Socialist Party, and a crisis has at last been reached. Adherents of the old party, believing that it would be impossible for them to countenance the dogmatic manner in which the party was being run, have undertaken to form a separate organization on broader lines, and to this end a meeting will be held in O'Brien's Hall on Wednesday evening for the purpose of formulating a new constitution. Ernest Burns, who led the head of this movement, objects to the attitude of the Socialist Party toward the Labor Party. He holds the labor movement is good as far as it goes, but that it is not sufficiently progressive. He says that the Kingsley party want a complete overthrow of power, and claim that it will surely come. It is this this dogmatism which has driven many to hand in their resignations. Mr. Burns states that as far as possible, these people will be got hold of, and with their assistance the new party will be established on a wider basis. A petition is now being circulated stating that seven years ago the Vancouver Socialist Party polled 684 votes. Three years later John Mortimer polled 1,333 votes, while at the last

election the highest vote polled by a socialist in Vancouver was 617.

This decline in the vote must not be attributed to any unpopularity of Socialist principles, because Socialistic ideas were never so widely accepted as at the present time. The real reason for the retrograde movement is that the propaganda is purely of a negative character, and does not appeal to the average working elector as practical; it fails to show that any practical knowledge has been gained to be applied to the principles of industrial and practical life, and that the condemnation of labor union activities is entirely unnecessary.

### A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new remedy was burned to the ground today. A favorable wind was blowing or most of the town would have been wiped out. Moore's general store and the C. P. R. property were in danger, but the wind prevented them from taking fire.

### A MANITOBA BLAZE

Edrans, Man., April 1.—The Edrans hotel was burned to the ground today. A favorable wind was blowing or most of the town would have been wiped out. Moore's general store and the C. P. R. property were in danger, but the wind prevented them from taking fire.

## CONSIDER PLANS FOR ANNUAL CELEBRATION

### Victoria Day Programme General Committee to Meet Tomorrow Evening

The first meeting of the committee of the Victoria Day Celebration committee will be held tomorrow evening in the Tourist association rooms, when a draft programme will be drawn up and the first attempt made to get the necessary arrangements under way. In order that every phase of the question may be considered the committee is open to receive suggestions as to the best method of celebrating the day that was made memorable as being the birthday of the late Queen Victoria. Already several suggestions have been made and they will be brought before the meeting and receive due consideration at the hands of the committee.

Having in view the decision of the general committee that the celebration should extend over two days, it will be necessary to consider the difficulty in sandwiching in the events that are generally held during the celebration. It has been decided that the annual regatta should be held on the afternoon of May 24th at the Gorge and at the same time the W. V. regatta will have a ladies match at Oak Bay in which the competing teams will be New Westminster and one of the Terminal city clubs. A horse parade and horse races have also been suggested and will be considered at the meeting.

In the last two celebrations a horse parade has been made a feature of the holiday making festivities. Last year the parade and the judging of the horses and equipments occupied all morning from ten o'clock until three in the afternoon, making it impossible for those who wished to be in the contest to attend any other attraction that day. It is now many years since horse racing was held during the May celebration, but the introduction of this form of sport in this year's programme would be hailed with delight by a large number of citizens. Now that the track at the Driving park is being put in condition an effort will be made to have it used on every opportunity, and it would not be surprising if horse races formed a part of this year's programme.

Baseball will also be represented and with a good fast team, large crowds could be attracted to witness what is expected to be one of Victoria's most popular summer amusements.

A military display and sham battle has also been suggested as being fitting for the celebration of a patriotic holiday. Evening entertainments have formed a burden on the committee for many years and will again this season.

Fire works have been recommended to the committee, and the military authorities have under the consideration the advisability of holding an assault-at-arms in the Drill Hall on the evening of May 24th.

The outlook is very promising and every effort will be made to have the celebration of 1907 go down in history as being a brilliant success.

### NERVELESS WOMEN

No Animation, Lack Endurance, Weak, Unstrung, Tired.

### FEROZINE WILL CURE

For sick women no remedy exists that uplifts like Ferozine. No remedy exerts so profound an influence upon the functions that supply clearness of skin, brightness of eye, elasticity of spirit, abundance of strength. Ferozine is a marvelous former of blood-rich, red nutritious blood, the kind that circulates life and activity to every organ in the body. Buoyancy, vigor and vim are restored,—to the nerves is given vitality, to weak places is a powerful support. Ferozine is a powerful tonic, and any weak, pallid woman can be quickly nourished back to joyous health if Ferozine is used. Won't you try Ferozine? It will cure you just as it did Mrs. Abram Carver of Stratford, P. C., who says: "I consider that I should recommend this preparation because I have proved it is simply wonderful in building up. I was all run down, suffered from an extremely nervous and unstrung condition. My sleep was broken and didn't rest me as it should. My appetite was little and only certain food appealed to me. My color was dull and I looked sick. Ferozine gave me a splendid appetite,—I grew stronger day by day. My nervousness, and apprehensions disappeared. Ferozine has given me absolutely sterling health and I recommend it highly." "No tonic is more effective. Absolutely safe for women girls and even children, good wherever there is weakness, debility, nervousness of ill-health. Try Ferozine, 50c. per box at all druggists."

### THE NICOLA RAILWAY

Is Now Entirely Under the Control of the Canadian Pacific

The Nicola railway is now entirely under the control of the C. P. R. and the first train under the new management arrived in Nicola on Monday, says the Herald. On board the train were several officials of the C. P. R., among them being H. E. Bessley, assistant superintendent of the Pacific division; H. G. Walker, division engineer; G. Munro, road master; S. Prenter, Z. Choate and the traveling auditor of the company, who at once installed W. Potter, late of Spuzzum, as agent for the company. T. O. Towhney, who is looking after the right of way on behalf of the company, was on the train, as were also J. Macdonell, in charge of the train, and J. Macdonell, in charge of the train, and J. Macdonell, in charge of the train.

### MARBLE BAY MINE CLOSED

Strike Occurs and There is No Telling When Work Will Be Resumed.

The Marble Bay copper mines on Tenth Island, one of the best paying properties on the coast, is closed as a consequence of a strike among the miners, and Mr. Alexander Grant, manager of the mines, declared in an interview at Vancouver, that there is no telling when operations will be resumed. The strike occurred as a result of the refusal of the owners of the property to accede to a demand from the miners for increased wages. "On February 20, a committee of miners waited on me," said Mr. Grant in talking of the trouble, "and laid before me certain demands giving me to understand that unless they were acceded to the men would be called out on April 1. A few days after I received orders from the owners in Tacoma to stop shipping ore because the Tacoma smelter could not handle it on account of a strike there. At that time we had just picked up an ore boat from the coast, and it was on which we had lost some time before, and though there was no use getting out more ore I kept the men in the stopes at work till the extent of the field was ascertained. "It turned out that the men were into one of the richest bodies of ore uncovered in the mine. Then I had the men in the stopes off. "Seemingly the miners came to the conclusion that this laying off of the men was my answer to their demands and they called out the men at work in the shafts and the winze. We in-

## GOV. DUNSMUIR'S PURCHASE

Vernon News Says He Will Erect a Summer Residence in Okanagan

A deal was put through last week by Major Anduin and R. McMillen of Victoria, acting for Lieutenant-Governor Dunsmuir, by which T. McMillen's ranch at Short's lake, Okanagan lake, comprising 1,000 acres, of which 200 are on a fertile flat, the rest being bench lands. Eighty houses, out of which 12 are in fruit trees, mainly apples, with about 12 acres in peaches, some of which come into bearing this year. The whole is watered from Jubilee creek, a fine stream, which forms a fine fall of 400 feet not far from the ranch-house. The property comprises some of the best fruit land in Okanagan. As a result of the purchase, it is mentioned that last year Mr. McMillen picked three boxes of Finnish Beauty peaches from two trees. There were no cuts at all, and the fruit averaged 1 1/2 ounces. Mr. McMillen's peach trees are not yet bearing, but Mr. Dunsmuir, whose ranch was situated on the same flat, received in 1904, \$140 for the fruit on eight peach trees. To illustrate the rapid increase of land values in the Okanagan valley, it may be stated that the whole property including that portion now owned by Mr. Lalivox was purchased by R. S. Dandus for \$15,000 in 1904. Mr. McMillen paid \$15,000 for his section and now he has sold out for \$35,000. It is understood that Mr. Dunsmuir, besides making it for fruit growing, will build a summer residence at the Point.

## TROUBLE IS EXPECTED AT TREADWELL MINE

Miners Talk of Strike and Troops Are Ordered to Scene to Keep Order

Juneau, April 1.—Trouble is feared at the Treadwell mine, on Douglas Island, as a result of an impending strike of about eight hundred of the fourteen hundred miners employed there and at the instance of Acting Governor Diston, Col. Woodbury, commanding the department of the Columbia, at Vancouver, Wash., ordered troops to go from Fort William H. Seward, about seventy-five miles up the Lynn canal to quell a possible disturbance and to protect life and property.

The acting governor moved on representations from Supt. Kinzie, of the Alaska Treadwell company, who feared the destruction of the company's property at the hands of the men, who are mostly Hungarians and Slavonians.

United States Marshal Shoup has just gone to Douglas with a view to doing what he can to preserve order. Supt. R. A. Kinzie is of the opinion that the presence of the military will be necessary. No bloodshed has yet occurred, and there is difference of opinion as to its probability.

However, acting on the information given him by the company officials, Acting Governor Diston ordered Col. Woodbury, in charge of the department of the Columbia, at Vancouver barracks, asking for military support, and Col. Woodbury, it is understood here, issued the order which is now carrying Col. H. A. Greene, with fifty men to the Treadwell mine, with a Gatling gun from Fort William H. Seward on the transport Peterson, which was held in readiness at the fort, at 3 o'clock this afternoon.

Col. Woodbury directed the sending of troops to Treadwell under the command of an officer of sound judgment to assist in the enforcement of law and the protection of property. There are three hundred men in Companies E and F, and the headquarters at Fort Seward, and all are held ready to leave for Treadwell should the necessity arise.

An army officer happened to be in Juneau at the opening of the trouble, and it was on his suggestion that the troops were put in readiness. Later the request for troops was countermanded, as the situation looked more peaceful. However, no word has been received of the turning back of the soldiers.

The trouble has arisen over the refusal of the mining company to discharge a steward with whom the Slavonian employees had had trouble. The miners have no protest on wages or hours, but object to the compulsory boarding mess. They want the privilege of boarding themselves, and an allowance of \$30 per month to cover the expense thereof.

The miners were recently organized by Joe Thorpe, representative of the Western Federation who has been working for two years in an effort to bring in a general union. Previous efforts failed on account of the inability of the Slavs to agree among themselves. The newly-formed union has about 800 members.

When the representatives of the union went to Superintendent Kinzie to get their grievances redressed, they were not employed. Several meetings have been held in the past few days, but there has as yet been no disturbance.

## OWNER WOULD GRADE STREETS TO LEVEL WITH BOTTOM OF EXCAVATIONS

John Haggerty, the owner of the Spring Ridge gravel pits, has a proposal which may lead to a final settlement of the whole vexed question surrounding that unsightly spot. He wishes to be allowed to grade the streets running across the pits down to a level with the bottom of the excavations, which he then intends to grade with the bottom of the pits. Mr. Haggerty made a similar proposal to the council last year, but it was turned down. Now in view of the renewed interest in the matter, Mr. Haggerty has decided to renew the offer, and a letter from him, stating his terms, will be read at the council meeting this evening.

"The trouble is that there is too much talk and too little work about this thing," said Mr. Haggerty to a Colonist reporter. "Here's Ald. Fullerton making himself heard on these gravel pits all the time, and the people of Spring Ridge with one continual howl, and yet no real effort is made to settle the matter. "Now I intend to make to the council all the same offer as I made last year. That is, I will undertake to grade all the streets running across the pits, down to a level with the bottom of the pits. Or, if the city wants to undertake the work, I am quite agreeable."

## NOTICE

low the exact street level, it would not matter. That's the case on lots of streets in this city. The only objection to which the plan is open is that it would have the effect of raising several residences five or six feet above the street level. And that is really no great objection. It would not affect more than three or four houses, and none of those would be but in a really bad position. Mr. Haggerty was inclined to regard some of the statements of the people of Spring Ridge with one continual howl, and yet no real effort is made to settle the matter. "Now I intend to make to the council all the same offer as I made last year. That is, I will undertake to grade all the streets running across the pits, down to a level with the bottom of the pits. Or, if the city wants to undertake the work, I am quite agreeable."
